The coal business of the Kanawha Valley, it is said, is increasing rapidly, both by railroad and river .-The greatest draw back being the scar city of cars and barges in which to transport it. When the Government improvement is completed, the coal business will be vastly increased on the river, and will soon make this Valley the greatest coal shipping point in the United States. All the falls this winter. available coal lands along the river and railroad is being rapidly bought up, and soon hundreds of mines will be in operation all along the Big Kanawha and the Chesapeake and Ohio Railroad. The Gazette says there are strong symptoms that the "boom" for which the Valley has been looking so long, is now at hand. We hope so.

Since Col. Tomlinson has been elected Mayor, evil doers had better look out, and behave themselves upon the streets. The man who violates the town ordinances and expects to get off with a light fine, will be mistaken when they are taken before our new Mayor. We hear of several new buildings that will be erected in our place this Spring. Among the number will be duties of this office during our aba two-story brick residence for Hon. sence. Wm. H.
